Memo to File:

RE: Minerals Recovery Corporation
South Lisbon Mine
San Juan County, Utah
ACT/037/018

This mine was briefly visited on May 8th by Tom Suchoski and Jim Smith, mainly to ask directions to the nearby Cub Mine.

According to Carl Lipp, of Minerals Recovery Corporation, there have been no problems at this mine, other than weather, since the Division granted final approval. A formal inspection was not made; at the time it was raining and snowing and the roads were very muddy, making travel difficult at best.
